

Business, Management, Accountancy and Finance Subject Centre Workshop

Enhancing Graduate Employability via E-Learning and Work-Related Learning

Wednesday 16 January 2008, 10.15 am – 15.45 pm

Seminar Room 3 - THE GANNOCHY
[The Wolfson Medical Building](#),
University Avenue,
University of Glasgow

10.15 Coffee

10.45 Welcome from BMAF. Steve Probert, Assistant Director, BMAF.

This session will provide a brief update concerning future BMAF activities that may be of interest.

11.00 Packaging materials to enhance employability.
Beverly Leeds, E-Evolve Project Manager, University of Central Lancashire

The E-Evolve FDTL project has developed e-learning materials aimed at enhancing the employability of graduates and these are suitable for use with students for PDP, work placement preparation/support and other employability related activities. Participants will explore how materials can be designed and re-used or re-purposed, and will be involved in the design of re-usable materials. A demonstration of the E-Evolve materials repository will also be provided.

13.00 Lunch

14.00 'Aiming University Learning @ Work' and making use of work-related learning in students' part-time work.
Sheena Bell, Depute Director of the Undergraduate Programme in Management, University of Glasgow.

This session will introduce 'Aiming University Learning @ Work', a 3-year cross-university work-related learning project funded by the Scottish Funding Council and involving The Universities of Glasgow, St Andrews and Glasgow Caledonian.

Sheena Bell will outline the experience and plans of a pilot project that is introducing students to the potentially favourable outcomes of their early involvement in developing their graduate employability through their student part-time work experiences.

15.30 Tea

15.45 Close
