frameWORKS AUDIT

The next step in enhancing student success

HEA's frameWORKS series delivers effective teaching and learning enhancement, centred on student success.

The series provides the HE sector with a national reference point for reviewing and enhancing policy, process and practice, covering the key thematic priorities that impact upon the quality of learning and teaching.

The frameWORKS series provides a way for benchmarking or evidencing current performance, progress and impact, over time and comparative to others.

Undertake an HEA audit

HEA provides an initial opportunity to engage with the frameWORKS series through a range of tailored audits. The audit process is summarised opposite.

An HEA audit takes a diagnostic approach, analysing institutional, faculty, department and/or programme performance against one or more of our thematic frameworks.

A completed audit is a powerful tool. It will provide a clear view of your learning and teaching strengths, highlighting where you currently achieve best practice, along with a set of focused recommendations.

TRANSFORMING TEACHING. INSPIRING LEARNING.

To find out how an audit can be arranged for your particular needs,
